Povidone-iodine, the active ingredient in Betadine® Microbicides, is active against a broad spectrum of pathogens, in vitro.¹

Betadine® Veterinary Products are not for use on food-producing animals.

Betadine® Solution Veterinary
Povidone-iodine, 5%
Antiseptic Microbicide
External Use Only • For Professional Veterinary Use Only

Use Full Strength For:
- Pre-operative prepping of skin and mucous membranes
- Preventing bacterial infection
- Emergency antisepsis of minor lacerations, abrasions, and burns
- Post-operative application to surgical incisions
- Use on companion animals, including dogs, cats, and horses

USES
- For preparation of the skin prior to surgery
- Helps to reduce bacteria that potentially can cause skin infection

DIRECTIONS
- Apply full strength to skin or surgical preparation site
- Wet area thoroughly to ensure complete coverage and penetration, but avoid “pooling”
- Allow to dry
- May be covered with bandage
- For use on companion animals, including dogs, cats, and horses

WARNINGS - FOR EXTERNAL USE ONLY

Do not use this product
- In the eyes
- On food-producing animals

When using this product
- Do not heat prior to application
- Prolonged exposure to wet solution may cause irritation or, rarely, severe skin reactions
- In pre-operative prepping, avoid “pooling” beneath the animal

Stop use and ask a veterinarian
- In rare instances of local irritation or sensitivity

Keep out of reach of children.
If swallowed, get medical help or contact a Poison Control Center right away.

**DIRECTIONS**  
Pre-operative skin preparation:  
- After the surgical area is clipped, wet it with water  
- Apply Scrub (1 cc is sufficient to cover an area of 20-30 square inches), develop lather and scrub thoroughly for about 5 minutes  
- Rinse off using sterile gauze saturated with water  
- The area may then be painted with Betadine® Solution Veterinary and allowed to dry  
- For use on companion animals, including dogs, cats, and horses

**WARNINGS - FOR EXTERNAL USE ONLY**

- Do not use this product  
  - In the eyes  
  - On food-producing animals

- When using this product  
  - Prolonged exposure to wet solution may cause irritation or, rarely, severe skin reactions  
  - In pre-operative prepping, avoid “pooling” beneath the animal

- Stop use and ask a veterinarian  
  - If irritation and redness develop  
  - In rare instances of local irritation or sensitivity

- Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.
